# 3. User guide

#### 3.1. Terms of Use

This is the first screen after download the App from the store. Every user must accept before using the application.

Has only two options:

- Accept: Goes to the Login Page; (See 3.2)
- Not accept: The app closes.

# 3.2. Login

At the Login page if the user already has register in the application there are two options to login in:

- 1. Login with e-mail and password
- 1.1. Fill the fields e-mail and password
- 2.2. Click in the "Sign in" button

2. If the user register was via facebook just must click again in the button "Facebook"

At this page the user can also Recover password (See 3.4) and Register (See 3.3).

# 3.3. Register

To register in the application only need to fill the fields:

- Name
- Password
- Confirm password
- E-mail

And click on the "Register" button.

#### 3.4. Forget password

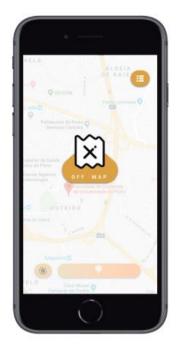

If the user forgets the password, can recover by sending an e-mail.

Fill the field e-mail and press the "Send" button.

If the email is sent correctly, the screen with the message will appear that was send.

### 3.5. Map

The main page and fist one after login is the map. If the user it's not in the Porto City, the application will show a message: "Off map"

Here the user can see the Pins where a property has already been posted with the colors of the classification. If the user clicks in one of them will see the Resume (See 3.7)

In this screen is also possible to access the menu of the application.

Other functionality here is that the user can click in "Location" and the map will center in the user location.

If the user founds a property that it is interesting to be on the application, here is the first step to post it. Must click on the "Pin" button.

When the user clicks, it will appear in the screen the approximate location that the user is. Is also possible to edit if is not right.

After that, the user confirms at the "Check" button and the application will open the camera of the phone like in the image below.

After taking the picture the user will see the screen with the location confirmed, the photo taken and will be able to sort if is:

- Ruined
- Degredated
- well maintained
- Vacante

After choosing the user can:

- Cancel: Return for the Map page
- Confirm:

- o Success: Show a message with Thanks for the post and the action to "Add more info" (See 3.6)
- o Error: Show a message with error and the action of try again.

#### 3.6. Add more information

The user can see this screen from two different origins:

- Click on the Resume to "Add more Info";
- Click on the button "Add more Info" in the page of thanks.

Here the user can put more information about the property like:

- Type of Owner
  - Private
  - Public
  - Other
- Use:
  - Housing
  - Offices
  - Shop
  - Others
- Type of Construction
- Year of Construction
- I wish this was

#### 3.7. Resume

When the user clicks in a pin already approved or a pin that the user created it will show the location, photo and more information's if already exists.

There are two functionalities:

- Add more Info (See 3.6)
- Take another Picture: Open the camera of the phone.

#### 3.8. My Pins

Show the pins that the user post it and the status:

- Reject
- Approved
- Not moderated

If the user doesn't post anything yet, will see this screen:

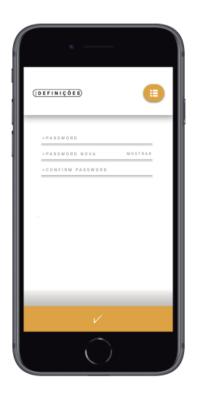

#### 3.9. Menu

The menu is the principle way to access other functionalities

- Administrator: (See 4.1)
- Map (See
- Meus Pins (See 3.8)
- Settings (See 3.10)
- Logout: Back to the Login Page (See 3.2)

# 3.10. Settings

The settings page is for the user change password by filling the fields:

- Password
- Confirm Password

## Administrator guide

#### 4.1. Moderate Page

This screen lists all the properties that need to be moderate. In the list will show two informations:

- Name of the user
- Address of the location

When the user clicks in one of them, will show the screen to approve. (See 4.2)

## 4.2. Approve Screen

On click in the item of the list to moderate will see the approve screen with two options: Approve or Reject. In both actions will see the message in the screen.

When the post is approved will show at the map with the color that the user chooses for the property.

Below is possible to see both screens:
